

HOSPITAL

Continuous Support

- Audit utility invoices and reconcile any errors found on behalf of the hospital. We spend **hundreds of hours** every year reconciling errors with utilities
- Responsible for keeping EnergyStar Portfolio Manager up-to-date for all hospital locations

Company Advocate

OEM's partnership means on-call access to energy expertise and a central resource company-wide

How OEM Helped Find Savings

- Identified problems with estimated water meter reads: through more than 100 hours of research, we were able to present our findings to the water department to secure a **credit** of more than **\$539,000** back to the hospital
- **Researched and problem-solved** several water meters that the client was being billed for, but did not exist. These efforts resulted in a \$321 savings
- Coordinated with **utility transfers** at new building acquisitions, ensuring that the hospital's utility accounts remained in good standing during the transition
